

Multicriteria decision aid is an important branch of Operational Research. Beyond the exchanges and meetings which already exist by means of the international conferences and the publications in the scientific journals, the objectives of the working group are the following:

- to contribute to the development, at a European level, of an original way of thinking in the field of multicriteria decision aiding,
- to allow each member of the group to make to others methodological, theoretical or applied results, to submit its own work and thoughts to the critical discussion of the group and also facilitate some collaborations,
- to develop multicriteria aid for decisions by facilitating contacts with every people interested in the subject and by stimulating continuity and progress in exchanges and work,
- to keep the group alive and open by means of bi-annual meetings which must not be mini-conferences but real meetings favourable to exchanges,
- to emergence of new ideas.

Board of Coordinators

José Rui Figueira

University of Lisbon

E-mail: figueira@tecnico.ulisboa.pt

Salvatore Greco

University of Catania

E-mail: salgreco@unict.it

Roman Słowiński

Poznań University of Technology

E-mail: roman.slowinski@cs.put.poznan.pl

Founder

Bernard Roy

Université Paris-Dauphine

Number of members:

Approximately 400. In 1975, the group consisted of 29 members from 5 different countries. 42 among present members were already members in 1980. Each meeting yields 5 to 20 new members. About 40 countries are presently represented in the Group.

How to join the EURO Working Group Multicriteria Aid for Decisions:

Send an e-mail to one of the Coordinators with a copy to [Milosz Kadzinski](#) , or participate in the next meeting of the Group (this will automatically include you as a member).
