

Multiple Criteria Decision Making

Annual

Editor-in-Chief: Tadeusz Trzaskalik, *University of Economics, Katowice (Poland)*

ISSN: 2084-1531

Access: Print and online edition

Multiple Criteria Decision Making is a double-blind-reviewed annual that explores the entire process or the selected elements of multiple criteria decision making. It was founded at the University of Economics in Katowice in 2011 as a continuation of the book series "*Multiple Criteria Decision Making*" published by the University of Economics in Katowice since 2005. All volumes are available electronically:

<http://mcdm.ue.katowice.pl/index.php?page=publications>

MCDM is indexed in the following databases:

- EBSCOhost (database: Business Source Complete),
- Proquest,
- CEJSH,
- BazEkon.

Call for Papers

MCDM is inviting papers for Vol. 11 (2016).

We invite original research papers on topics related to the methodology of MCDM and to its theoretical foundations. Real-world applications, case studies and software applications that support MCDM problems are also welcome.

The deadline for vol. 11 (2016) is July 15, 2016.

Manuscripts must be submitted electronically via e-mail to: mcdm@ue.katowice.pl.

Detailed editorial and content requirements can be found on the WWW page:

<http://mcdm.ue.katowice.pl/>

Submissions for Vol. 11 (2016) are free of charge.
