Classes

1. Explainable AI
2. Web crawling and scraping
3. Stemming, lemmatization
4. Document similarity
5. PageRank
6. Indexing
7. Collaborative filtering

Rules

After each class (1, 5, 6, 7), there will be a small project that should be sent within 144 hours after the class. For classes 2, 3, 4, there will be one big project awarded with three grades - recommendation system for Wikipedia articles.
One lowest grade will be not accounted for when calculating the final grade.

The final grade is equal to an average from all small grades.
Attendance is not obligatory.
